

KidSingers Essay

My future life choices are already planned out and that's because I've planned it that way. From what I can say now is that I've never been so happy at this point in my life. The life ahead of me is full of ambition and determination. My future career goal is to work in the Forensic Pathologist field. I plan to achieve my career goal by attending Cypress College located in Cypress California. However, my primary goal is to graduate high school with a high school diploma.

The reason I would like to attend college is because I always wanted to go above and beyond and be unique from everyone else. I'm very passionate and I love to help others and I will be happy to assist other people in regards to a loved one that have lost. Waking up and knowing everyday that I get to attend one of my dream jobs will be a blessing and I get to do something that others wouldn't be able to.

Being able to go to KidSingers has been an amazing opportunity. I am no longer hiding my confidence and I am speaking out more. KidSingers has helped me become the young lady I am today and that's helped me come out of my shell. I am not afraid to speak up and be confident about my actions. The young lady I am today stands up tall and doesn't slouch. Above all, I am not in fear of being heard. My thanks goes to KidSingers for making this all possible.

Moreover, I am thankful for being in KidSingers because I can call this a second home. This program has given me an extra push down my road of success. I have been attending KidSingers for eight years and they have brought wonders to my life. I hope that many more opportunities like this will come in my future. Thank you.
