

## KidSinger's Scholarship Essay

As a sophomore in high school we are all expected to do well in school and get outstanding grades. We are to decide what we want to do for the rest of our lives. That can be very stressful for us students and is a heavy burden to carry upon our backs at such a young age. It is very challenging as this education is at a fast pace demanding that I escalate past those challenges and the speed required which is somewhat challenging. But this sets my goal as a student to beat that fast pace and get good grades so I can make good academic choices that will lead me to a place where I will discover a variety of options so I know what to pursue in life.

Over the past five years I was given a blessing that is KidSingers. This after school program has benefited me in a way that not many students get to experience or take advantage of. It has brought me out of a shell that held me captive for a very long time in terms of being afraid to come out, raise my voice and to say what I believed in or what I was thinking. This program has also encouraged me to get good grades and has driven me to stay away from the wrong crowd so I can become successful in life.

KidSingers has showed me to respect others and give kindness which I will model through the rest of my life.

Reasons I keep on pushing myself to get a college education is because I am driven to prove to those individuals wrong, those who said I was worthless or couldn't be anything in life because I wasn't good enough. I will prove that they were wrong about my self-worth. They are the ones who motivate me to become a better person and look forward to the next sunrise of everyday. I also have a strong desire to go to college and get an

amazing education to become an accountant, psychologist, doctor or maybe even a teacher. I will provide for my mom and dad with this amazing education just like how they have provided for me even though they struggle to pay for bills but still find a way to get me everything I need in order to pursue a strong future for myself. So thank you for this blessing and this opportunity as this is an amazing experience that has taught me so much, thank you.
