

## KidSingers Essay

I can say without a doubt that this year a lot has changed in my life, many ups and many downs, but one thing has remained the same and that is the love and support that I've continued to get from KidSingers. Looking back to when I started attending this program seven years ago, I never knew how much KidSingers would help me grow and become the person that I am today.

As a junior attending Segerstrom High School, having to juggle AP classes, dance practice, and KidSinger practice was not easy, but I managed to balance all these activities. Next year I will be graduating, I don't see it as an ending instead I look at it as a new beginning in my life. I would like to attend either UCLA, UC San Diego, or NYU. I still haven't quite made my decision but those are my dream schools. I would like to pursue a career as a pediatrician.

As far as my studies go, I am hoping to one day receive my PHD. Attending college is a very important matter in my family. My parents want to see me strive for success, and in receiving my degree, I would become the first doctor in my family. I know by pursuing a college degree it would make my family proud, and with the help of KidSingers and their scholarship opportunities, it is possible for me to be able to achieve my goals.

KidSingers has helped me open up more and taught me not to be shy. I am no longer the shy, little fourth grader that I was when I entered this program. KidSingers has helped me be more confident in the things that I do. Although I only have one year left in the program, I will try and make the most of it and continue to become a better me.
